

# MyRocks ALTER TABLE

Aurélien LEQUOY · 2026-03-06

MARIADB ROCKSDB CORRUPTION DDL INCIDENT-RESPONSE MDEV-39044

## MDEV-39044 — MYROCKS CORRUPTION TRIGGER

ALTER TABLE + write load + memory pressure → .frm mismatch

journalctl: nothing — no OOM, no segfault      PmaControl: uptime reset + error log → detected

MDEV-39044 — Absence of crash log is the expected behaviour

2026-03-06

2026-03-06 PmaControl MariaDB OOM

```
RocksDB: Error opening instance, Status Code: 2,  
  Status: Corruption: truncated record body  
Incorrect information in file: './pmacontrol/ts_value_general_int.frm'  
Can't init tc log  
Aborting
```

.frm mismatch
